

The FAA Safety Team presents:

SMS - Not Just for Pilots at HAI HELI-EXPO 2016

The very nature of an organization's mission establishes a certain level of risk from the onset. Add other elements to the mix, and attitudes about acceptable risk begin to emerge. In this session, we will explore how humans, and more specifically personnel other than pilots, think about safety. Studies have shown that if the perceived benefit is high, a person's tolerance for risk tends to increase. Pilots perform a flight risk analysis prior to takeoff as a way of removing that inherent perception of risk. Shouldn't the same approach apply to everyone involved in the flight? This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2016. These sessions are FREE to all HELI-EXPO 2016 registered attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions at HELI-EXPO 2016 and receive a certificate of recognition for completing the 2016 HAI Rotor Safety Challenge.

Take the Safety Challenge in three simple steps:
1. Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule. To see the full Safety Challenge schedule, visit <http://www.rotor.com/takethechallenge>.

2. At the conclusion of each session, receive an official token from the room monitor or presenter.
3. Once you have earned at least six tokens, drop

Event Details

Wed, Mar 2, 2016 - 09:15 EST

Kentucky Exposition Center

937 Phillips Ln

South Wing C

Louisville, KY 40209
